

FÉLIX PERRIER

French Engineering and Management Student | Software Developer
Lille, France | +33 7 88 66 13 51 | felix.perrier@iteem.centralelille.fr | linkedin.com/in/félix-perrier

PROFILE

Engineering and management student at ITEEM (Centrale Lille), currently software developer at an AI SaaS startup. Fast learner with a daily AI-assisted development workflow. Looking for an international internship at a company working on new technologies: software, AI, defense.

EXPERIENCE

Software Developer | Colibrimo (fixed-term, 25 h/week alongside full-time studies) **Sep 2026 - Present**

- Position offered following my internship. Development of the company website, internal hub and dashboards.

Software Developer Intern | Colibrimo (AI SaaS, renovation cost estimation) **Jun 2026 - Aug 2026**

- Full-stack development of the web application: Next.js, React, TypeScript, Supabase (PostgreSQL, Edge Functions).
- Set up company verification via the government registry API, the account deletion flow, a support ticket system and a public product roadmap.
- Built an internal hub consolidating tens of thousands of contacts.

Freelance Web Developer and Photo/Video Producer **Ongoing**

- E-commerce redesign with real-time 3D configurator, self-hosted. Promotional films and photo reports for clients.

Marina Operations Intern | Bartoli Marine, Corsica **Jul 2025 - Aug 2025**

- Logistics for a 50-boat fleet, harbor maneuvers and technical support during peak summer season.

Naval Military Preparation (PMM) | French Navy **Sep 2023 - Jun 2024**

- Ten-month operational training program: discipline, stress management and teamwork in a demanding environment.

EDUCATION

ITEEM | Centrale Lille and SKEMA Business School, France **2024 - 2029**

- Five-year integrated engineering and management degree (Master's level), currently in year 3.
- Coursework: mathematics, physics (waves, electromagnetics), electrical engineering, web development, data analysis, project management, entrepreneurship.

SKILLS

Web	TypeScript, JavaScript, React, Next.js, HTML, CSS, SQL/PostgreSQL, Supabase, Git, Shopify
AI	Agentic coding (Claude Code), custom agent skills and multi-step workflow development, MCP server integration, context and prompt engineering, LLM-driven data automation
Fabrication	CAD (Onshape, CATIA), resin and filament 3D printing, machining, welding
Mechanics	Engine teardown and rebuild (motorcycle and car), full maintenance of my own vehicles
Languages	French (native), English (C1 - Cambridge C1 Advanced), Mandarin Chinese (basic), German (basic)

ADDITIONAL

- Licenses: driving (car, motorcycle), coastal boating.
- Interests: AI and tech watch, mechanics and 3D modeling, sailing, student association life.
